SUMMARY

As a Software Engineering student at NED University, I specialize in frontend development and am currently expanding my expertise in backend technologies. I enjoy creating responsive, user-friendly interfaces and thrive in collaborative environments to deliver efficient solutions.

WORK EXPERIENCE

Internship at Prodigy InfoTech

4 weeks

- Domain: Machine Learning

Internship at TPS Worldwide

4 weeks

- Domain: Frontend Development (UI/UX Team)

EDUCATION

NED University Of Engineering and Technology

Oct 2022- Present

Software Engineering

BAMM PECHS College

2020- 2022

Pre-Engineering

FalconHouse Grammar School

2020

SKILLS

- **Frontend Development:** React, JavaScript, HTML, CSS, UI/UX design principles
- **Problem-Solving:** Debugging, performance optimization, scalability considerations
- **Machine Learning exploration:** continuous learning of new technologies
- **Backend Development:** Node.js, Express.js, PostgreSQL
- **Version Control:** Git, GitHub

PROJECTS

- **GlowQuester:** Developed a skincare website that features a personalized quiz to suggest skincare routines based on user preferences and skin type. The platform also allows users to make purchases. Technologies used include React.js for the frontend, Node.js, Express.js for the backend, and PostgreSQL for database management.
- **TechWare:** TechWare is a hardware-focused e-commerce web application that allows users to seamlessly browse, select, and purchase tech products. Built with React, CSS, and JavaScript on the frontend, it offers a smooth and responsive user interface. The backend is powered by Node.js and Supabase, enabling real-time data management, user authentication, and secure transaction handling.
